About Amed:

The place commonly referred to as Amed isn't a single town but a string of quaint beachside fishing villages stretching about 10km along the dry and rugged northeastern coast of Bali. Impressive landscapes you will see !

Amed has some good snorkelling areas within metres of the shore. A reef follows the majority of the coastline and is quite close in. Due to the limited number of visitors to the area and a growing conservation awareness among the locals, the sea life is healthy and abundant. There is a small wooden wreck in only 1.5 m of water off Lipah Beach (Amed). And off caus a colourful marine life you can see just by snorkeling.

Tour description:

After hotel pick-up, we will drive in a comfort van to the east side of Bali Island, around 2,5 hours from Denpasar town to visit the beautiful beach of Amed and stop at 2 places for snorkeling. At Amed beach we don't need the boat to go to the ocean for snorkeling and diving. You can see beautiful colourful reef and many reef fish. After lunch in Amed (optional) we will have an other beach and snorkeling stop. On the way to Amed you can see Klungkung, Candi Dasa and Tirtagangga.

Also we have some interesting stops on the way back to your hotel e.g. Kerta Gosa in Klungkung .

This snorkeling tour is good for:

People who want to snorkel directly from the beach. Although the beach at Amed has black sand, it isn't rocky like the beach at Tulamben, making it easier to get in and out of the water.

Also good for children (over 8 years) who can snorkel in shallow water.
